Ans 1⟩ Problem Statement → Analyze the ^security aspects

of the google account

Objective → A Google account is the key to
accessing all of google's products and services,
many of which are free. Signing up for a
google account is a quick process, but need
to give out some personal information. So the
main objective is to control the information for
google account holder.

A⟩ Create a google Account to access to many
google products.

Step 1 → Go to the official site of google
account for sign in.

Step 2 → Click on Create Account and create
your google account by filling
necessary details.

Step 3 : Create Passcoord for your account.

Step 4 : Account Created Successfully.

My email id is shivantj99@gmail.com

B) Change your Google Account Passcoord.

1) Open your google Account. You might need to sign in.

2) Under "Security," select signing in to Google.

3) Choose Passcoord. You might need to sign in again.

4) Enter your new passcoord, then select change Passcoord.

C) Check google Privacy Policies.

Your can take a Privacy Checkup and choose the setting that are right for you →

- Automatically delete Web & App Activity.

- Automatically delete Location History

- Automatically delete Youtube History

- Make a plan for your account.
- Review setting for face grouping.
- Check third - party access.
- Review your ad setting.
